RE: Patrick Swiney #154406 G79; 100 Warrior Lane; Bessemer, AL 35023

Dear Sir:

I address this appeal to you as a close friend of Mr Swiney and with respect to your position at the above Facility. It has come to my attention that he is not in receipt of the medical attention necessary and vital to his (serious) condition. It is of the utmost importance, as I am sure you will appreciate that Mr. Swiney receives immediate attention for his condition. He is afforded this right to appropriate medical provision not only as basic Facility rule but also as a constitutional and humanitarian right.

Only a serious and independent expert can testify whether release is advisable due to health conditions. If further punishment is not justifiable and goal of correction cannot be reached (dignity of man, Article 1 German Constitution) release must be considered in our country.

Sincerely,

Franz Kurz
