The Case of Patrick Swiney

Dear honorable Governor Bob Riley,

We write to you this letter on Patrick Swiney's behalf. Our best friend Sherry Swiney's husband suffers from medical neglect in an Alabama Prison, and needs urgent and immediately help.

Sherry Swiney has done so much to help people all over the world who suffer from prisoner's abuse. Now, after she was one of the Organizations who organized the March on Washington DC, all seems like the prison has the order to kill Patrick. That is exactly, what we think about it here in Europe.

We want let you know, that Sherry and Patrick have thousands of Friends also in Europe (France, Belgium, Holland, Germany and others). We all look at the case of Patrick. If Patrick will die, because of medical neglect, be sure that our Foreign Office in Berlin is informed long before that could happen. And the Government must take all political consequences. It is a shame, that a sick man like Patrick Swiney is incarcerated since so many years; a man who has scientifically proven his innocence.

Attached is a Document about Patrick Swiney's Situation. The Prison Officers laugh about his breath problems. Think about if you would be in the same situation... wouldn't it be a living hell for you?

We all hope to hear positive News on Patrick soon.

Best regards

Ralf Dellhofen
